

<p>Contractor Guidelines & Site Plan Review Shorewood Zoning Committee, Property Manager and the owner/contractor meet to review the Shorewood Contractor Guidelines and building logistics with the Property Manager before construction can begin.</p> <p>Shorewood Zoning Committee, Property Manager and the owner/contractor work together to develop a site plan. This plan determines the utilization of Shorewood property including road blockage, dumpster placement and parking during the building process.</p> <p>In cases of DEQ permitting, Shorewood Zoning Committee reviews the DEQ construction requirements and site work.</p>	✓	✓													
<p>Permit Posting Shorewood requires all permits to be posted at the building site. Permits include township, drain commission, BCBH and DEQ/Egle permits.</p>				✓											
<p>Project Monitoring Property Manager/Shorewood Zoning Committee monitor the project (until DEQ compliance is met and occupancy permit is issued).</p> <p><i>Note: The purpose of Shorewood monitoring is to ensure the contractor is complying with Shorewood Construction Rules and the Property Manager is informed of any special construction plans (e.g. road closures).</i></p>		✓										✓
